

Woodland Aviation MrCool Information Sheet

Your authorized West Coast Installation and service center for MrCool, a fully automatic climate control system on Bonanzas and Barons.

This system is standard equipment on all new Bonanzas and Barons.

- True 16,500 BTUs of cooling power.
- System uses engine driven compressor. Certified to remain on during take offs and landings.
- Full digital automatic climate control.
- Modified overhead console and dual zone temperature feature.
- The rear passengers have the convenience of a switch that will control the rear heat with a bar graph indicator.
- Complete system weight is 41 lbs. Electrical load is 20 amps.

Bonanza: G36 – A36 – A36TC – B36TC – V35 – F33A (most 14V Bonanzas, call for details)

Baron: G58 – 58 – 55 Series

Most 28V Bonanzas installed \$26,500*

Baron 58 installed \$31,500*

***Items below could result in additional cost**

(Each aircraft should be inspected prior due to variability in models along with previous modifications)

- 12V systems will require additional cost due to system modifications.
- Load analysis required on all systems to ensure sufficient alternator size. Installation may require the installation of a larger alternator.
- Inspection of rear avionics bay required for adequate space.
- Some painting required. Price includes basic white. Stripes, custom and metallic colors are extra.
- System requires a belt driven starter adapter set up for AC and some aircraft are equipped accordingly while some aircraft require the replacement of the starter adapter with a belt driven model.
- Center overhead plenum is plastic and molded in grey color. Upholstery addition or color change is at an additional cost.

Call for details to discuss your specific aircraft and schedule an inspection of your aircraft or set up an installation at 800-442-1333 or E Mail the Director of Maintenance at gmmcardell@woodlandaviation.com.

Combine with your annual or avionics upgraded and receive a reduced bundled package price.

Woodland Aviation is a Part 145 FAA Repair Station and Beechcraft Service Center since 1963 serving the West from our northern California / Bay Area location.
